Pain with Spinal Cord Injury

Speaker: Vivian Moise, MD, Spinal Cord Program Director

Date: October 2, 2017
Time: 3:00 - 4:30
Place: St. Luke’s Rehabilitation Institute, Room 200
Also available over Northwest Telehealth Network

Presentation: Pain control can be a significant challenge to those who have experienced a spinal cord injury. Dr. Moise will present on unique pain issues and needs of a person who has experienced a spinal cord injury. Topics will include etiologies of pain in this population as well as various treatment plans and options that may be successful.

Presentation Objectives:
1. Understand the frequency and severity of pain in people with SCI.
2. Know the various types of pain in people with SCI.
3. Be familiar with the treatments for SCI-related pain, including the prescription medications, alternative/complementary treatment options and surgical treatment options.

Available over the Northwest TeleHealth Network

Vivian M. Moise, MD
Spinal Cord Program Medical Director

A strong connection with each patient is the guiding influence in Dr. Vivian Moise’s care. She sees herself as being a patient educator as well as a physician and works to improve the quality of life of each patient.

Dr. Moise graduated with honors from the University of California, San Francisco. She completed her Physical Medicine & Rehabilitation Residency at the University of California Davis Medical Center, where she later served as Chief Resident. Board-certified by the American Board of Physical Medicine and Rehabilitation as well as in the sub-specialty of Spinal Cord Injury Medicine, Dr. Moise currently serves as Medical Director of the Spinal Cord Injury Program at St. Luke’s Rehabilitation Institute and also as Medical Director for the Spokane Muscular Dystrophy Clinic.

Dr. Moise specializes in the treatment of patients with spinal cord injuries, neuromuscular diseases, and musculoskeletal injuries.
She also enjoys time outside as an avid gardener.
