Augmentative and Alternative Communication in Amyotrophic Lateral Sclerosis

Presenter: Ashleigh Solak, MS, CCC-SLP

Date: September 27, 2017
Time: 12:10-1:00 p.m.
Place: St. Luke’s Rehabilitation Institute
Room 200
Also available over Northwest Telehealth network

Presentation:
Patients with Amyotrophic Lateral Sclerosis (ALS) often experience challenges with communication as the disease progresses. Ashleigh Solak, MS, CCC-SLP will share her vast experience in use of augmentative devices and alternative methods for these individuals to communicate.

Presentation Objectives:
1. Attendee will be able to identify the difference between low tech AAC and high tech AAC and determine which is appropriate for certain populations/stages.
2. Attendee will be understand treatment as it applies to AAC
3. Attendee will be able to identify at least 4 key assessment areas when assessing an individual with ALS for AAC.

Available over the Northwest TeleHealth Network
