

St. Luke's has given me the tools so that when I do get out there I have ideas for the right postures and lifting techniques . . . it is much safer for me . . . I've increased my endurance quite a bit. I've gotten a lot stronger. It has done wonders for me. It has made life a lot better.

— Scott Abbott, St. Luke's past patient who at the time was recovering from being injured on the job.

At St. Luke's we are committed to helping people return to work quickly and safely. Through our comprehensive industrial rehabilitation program incorporating work conditioning, and work hardening, we partner with patients at any stage of their injury to provide personalized and customized services throughout the return-to-work process.

Effective Team Approach

Our professional, experienced interdisciplinary teams of psychologists, vocational rehabilitation counselors and physical, occupational and are specially trained and certified to help people succeed at returning to work. Services range from evaluations and assessments, to therapy treatments, as well as and ergonomics.
