A spinal cord injury can happen to anyone at any age. In 2018, St. Luke’s provided inpatient rehabilitation services to more than 157 inpatients and 38 outpatients who suffered a spinal cord injury or illness. This includes traumatic and non traumatic injuries resulting in tetraplegia or paraplegia. The ratio of male and female patients in the spinal cord program is 24% female and 76% male.

Ages of patients served in the Spinal Cord Program
